Dear Colleagues,

We are pleased to invite you to participate International "Istanbul Breast Cancer Conference - BREASTANBUL 2018" which will be held in Istanbul Wyndham Grand Hotel between 11-13 October 2018.

BREASTANBUL is the new brand of multidisciplinary meeting focusing exclusively on breast cancer and bringing together all related disciplines to discover and discuss the latest research with the goal of strengthening collaborative treatment approaches and enhancing patient care.

Our aim is to carry our achievements forward that are acquired at each and every conference. This international conference is organized every two years and it is the most important platform that is convening our colleagues so that they can discuss recent scientific and professional updates.

The ongoing research related to the clinical management of breast cancer around the world requires international experts to meet, exchange knowledge and experience and focusing on multidisciplinary aspects of treatment.

In this cosmopolitan city where two continents meet, all important international stakeholders will get together to update each other on the latest research during interactive sessions. There will be plenty of opportunity to build network with each other in a pleasant environment so that you can take a break from the intensive work environment and enjoy meeting your colleagues that you did not see for a long time.

On the behalf of the organizing committee, we are pleased to invite you to the "International Istanbul Breast Cancer Conference - BREASTANBUL 2018". Only through your valuable participation, we may enjoy a fruitful scientific event where the most cutting-edge developments in breast cancer treatment will be introduced. In order to unite our power, we are expecting you to participate the conference and receive your contribution.

We look forward meeting you at the BREASTANBUL 2018.

With our best regards,

Cihan Uras, MD  
Chair

Bahadır M. Gulluoglu, MD  
Chair

## Abstract Submission

### Deadline is June 15, 2018

All abstracts must be prepared in English. Abstracts will be accepted only through the "Online Abstract System" on our website. Abstracts sent through e-mail, fax, ordinary post or delivered by hand will not be evaluated. Please carefully check all text for errors before submitting into the system as the quality of your submission may strongly affect the outcome of the reviewer's scoring of your abstract.

#### Best Abstract Awards

In the scope of 3rd International Istanbul Breast Cancer Conference with International Attendance, the best oral and poster abstracts evaluated and selected by the Abstract Awards Committee will be rewarded with the Best Abstract Awards.

Best Oral Abstract Award \$ 1.000

Best Poster Abstract Award \$ 500

#### ABSTRACT SUBMISSION GUIDELINE

##### Online Abstract System Procedure

- Authors shall open an account on the online abstract system with a username and a password.
- Please do not forget to authorize your abstract once submitted. Only authorized abstracts will be evaluated. Abstracts not authorized by the authors will not be sent to referees.

##### Abstract Submission Rules

- Abstract should not be longer than 250 words.
- Title must be less than 10 words and express the essence of the study.
- Names, last names, titles, institutions, cities and contact details of the authors should be stated clearly.
- Presenting author should be stated in the system.
- Abstract body should not include any indication of the authors' personal details.
- Avoid reference to institution names, locations or funding sources in the text of the abstract.
- The abstract (excluding case reports) should include the following sections:

**Purpose:** In one brief sentence provide the rationale for the investigation and/or the question to be answered, with or without short citation(s). Citations should be listed and provide the name and initials of authors (max 3), title of article, title of journal, year of publication, the volume number and first and last page numbers in full. Please note: The aim implies that case reports cannot be accepted unless the case has considerable clinical significance that deserves presentation.

**Materials and methods:** The experimental conditions should be reported briefly (i.e. age group, nature of the subjects, gender). The clinical approach and study period should be precisely described. The methods used should also be clearly indicated.

**Results:** The main results of the study should be stated briefly.

**Conclusion:** This is any conclusion(s) that can be drawn from the results.

This final statement is crucial because it supports the scientific value of the presentation.

- Abstracts of the unfinished studies will not be evaluated.

#### DECISION

- Abstract acceptance letters will be sent to the submitting author's contact e-mail address in the system.
- All accepted abstracts will be highlighted in the system and authors will be able to monitor the actual state of their abstracts.
