

MASTOLOGY ASSOCIATION OF NORTHERN & SOUTHERN MEDITERRANEAN MANOSMED

Mediterranean Mobile University of Mastology

**A Montpellier University School of Medicine Diploma Program
MANOSMED Course**

in collaboration with SENATURK and Kocaeli University on

"Advanced Breast Cancer: Biology, Management and Outcomes"

13-15 December 2017

Dedeman Hotel Convention Center, Gayrettepe
Istanbul, Turkey

www.manosmed.com

SENATURK
SENOLUJİ AKADEMİSİ

Dear Distinguished Colleagues and Friends,

On the behalf of its organizing committee, I would like to invite you all to our semi-annual MANOSMED Course in cooperation with SENATURK (Turkish Academy of Senology) on "Advanced Breast Cancer" which we are planning to be held in Istanbul, Turkey next December. As many of you know that MANOSMED is one of the oldest organizations established in this region to provide a high-quality training and education on breast diseases (Mastology/Senology) with update objectives. MANOSMED Courses are provided semiannually each calendar year at different member countries. There are four main themes which the courses are programmed accordingly: Basic Issues/Science, Benign Diseases, Early Disease and Advanced Disease. A classical course consists of 2 ½ day - lectures and panel discussions on the given theme in addition to precourse half day practical hands-on training sessions. MANOSMED gathers those professionals from countries around Mediterranean aiming to increase the cooperation and foster efforts for better breast care. MANOSMED also provides the official internationally acknowledged license diploma of Montpellier University (France) on "Senology" to those successfully complete all four courses on each theme issue. Although it is not obligatory, at the end of each course, a written exam is sit by the course attendants. However, only those who pass these exams from 4 main subjects are authorized to receive the diploma. The courses are bilingual as English and French. Therefore, in whichever language the lecture is given, the slides shown are in both languages, so participants who are not fluent in any one language may follow the lectures with good understanding in the other. As it will be on "Advanced Breast Cancer", MANOSMED Istanbul Course includes issues on advanced cancer biology & disease patterns, decision-making & clinical reasoning in locally advanced disease, next generation precision medicine: personalized approach for advanced cancer, multidisciplinary point-of-care management in advanced disease, neoadjuvant treatment, multimodel loco-regional & systemic treatment of metastatic disease, critical thinking & problem solving in advanced cases, persistent & recurrent diseases, palliation and orphan issues (occult disease, pregnant patients, male cancer, extraaxillary regional lymphatic metastasis). As you may read the scientific programme in detail, it is based on recently updated issues as well as basic knowledge. At the end of the course, we expect the participants to know, learn and understand the biology of the disease overall and professional approaches to the advanced disease under all this context without neglecting the delicate care to those who really need. Our course faculty consist from MANOSMED and SENATURK faculty members who are nationally and internationally well-recognized eminent academics with large experience on their fields. Therefore, we are very much excited to look forward hosting you here in our World-heritage city of Istanbul where cultures meet and are mixed all throughout the mankind history. This is the city in which everybody find something from themselves. Istanbul is believed to be a unique city coming out from fairy tales which entertains people of every age. We are sure that you will be also enjoying the city which we hope give you unforgettable memories. Due to the date of the course, the city will be attractive with the New Year Eve festives as well. We estimate that there will be many alternatives for shopping and sightseeing for you and your accompany. We do hope to see you joining us at this MANOSMED course which will be for the first time organized in Turkey. Let's meet in Istanbul to enjoy the opportunities which the city and meeting will offer.

Very best wishes to you all,

Bahadir M. Gulluoglu, MD, FACS, FEBS (Hon)
Professor of Surgery
Course Convenor

Convenor

Bahadir M. Gulluoglu, MD, FACS, FEBS (Hon)

Main Topics

Advanced Cancer Biology & Disease Patterns

Decision-Making & Clinical Reasoning in Locally Advanced Disease

Next Generation Precision Medicine: Personalized Approach for Advanced Cancer

Multidisciplinary Point-Of-Care Management in Advanced Disease

Neoadjuvant Treatment

Multimodel Loco-Regional & Systemic Treatment of Metastatic Disease

Critical Thinking & Problem Solving in Advanced Cases

Persistent & Recurrent Diseases

Palliation

Orphan Issues (Occult disease, pregnant patients, male cancer, extraaxillary metastasis)

Organizing & Curriculum Committee

Erkin Aribal

N. Zafer Canturk

Bahadir M. Gulluoglu

Hasan Karanlik

Handan Kaya

Abut Kebudi

Halil Turgut Turoglu

Basak Oyan Uluc

Stefan Voiculescu

Scientific Secreteriat

Ali Ilker Filiz

Sertac Ata Guler

FACULTY LIST (In alphabetic order)

Prof. Jalil Abdelouahed, National Institute of Oncology, University Souissi, Surgical Oncology, Rabat, Morocco

Dr. Bilge Aktas, Medeniyet University Hospital, Medical Oncology, Istanbul, Turkey

Prof. Erkin Aribal, Acibadem Altunizade Hospital, Breast Radiology, Istanbul, Turkey

Assoc. Prof. Can Atalay, Acibadem Altunizade Hospital, Breast Surgery, Istanbul, Turkey

Prof. Gul Basaran, Acibadem University School of Medicine, Medical Oncology, Istanbul, Turkey

Prof. N. Zafer Canturk, Kocaeli University School of Medicine, Breast & Endocrine Surgery, Kocaeli, Turkey

Prof. Ion-Christian Chiricuta, "Carol Davila" University of Medicine and Pharmacy Radiation Oncology, Bucharest, Romania

Prof. Faysal Dane, Marmara University School of Medicine, Medical Oncology, Istanbul, Turkey

Prof. Gokhan Demir, Acibadem University School of Medicine, Medical Oncology, Istanbul, Turkey

Assist. Prof. Ahmet Erkek, Bahcesehir University School of Medicine, General Surgery & Anatomy, Istanbul, Turkey

Prof. Ali Ilker Filiz, Okan University School of Medicine, General Surgery, Istanbul, Turkey

Prof. Negib Geahchan, St Joseph University Medical School, Surgical Oncology, Beirut, Lebanon

Assist. Prof. S. Ata Guler, Kocaeli University School of Medicine, General Surgery, Istanbul, Turkey

Prof. Bahadir M. Gulluoglu, Marmara University School of Medicine, Breast & Endocrine Surgery, Istanbul, Turkey

Dr. Semra Gunay, Okmeydanı Training & Research Hospital, General Surgery, Istanbul, Turkey

Assoc. Prof. Gunay Gurleyik, Haydarpasa Numune Hospital, General Surgery, Istanbul, Turkey

Prof. Georgios Iatrakis, Athens University of Applied Sciences, Obstetrics & Gynecology, Athens, Greece

Dr. Kerim Kaban, VKV American Hospital, Medical Oncology, Istanbul, Turkey

Prof. Hasan Karanlik, Istanbul University Oncology Institute, Breast Surgery, Istanbul, Turkey

Prof. Handan Kaya, Marmara University School of Medicine, Pathology, Istanbul, Turkey

Prof. Abut Kebudi, Okan University School of Medicine, General Surgery, Istanbul, Turkey

Assoc. Prof. Taner Korkmaz, Acibadem University School of Medicine, Medical Oncology, Istanbul, Turkey

Prof. Nil Molinas Mandel, VKV American Hospital, Medical Oncology, Istanbul, Turkey

Prof. Thierry Maudelonde, University of Montpellier, Cell Biology and Pathology, Montpellier, France

Assoc. Prof. Helidon Nina, University Hospital Center "Nene Tereza", Surgical Oncology, Tiran, Albania

Prof. Andreas Patsalides, Makarios Hospital, Obstetrics & Gynecology, Nicosia, Cyprus

Assoc. Prof. Omar Omar, Cairo University School of Medicine, Breast Surgery, Cairo, Egypt

Assoc. Prof. Beyza Ozcinar, Istanbul University Istanbul Faculty of Medicine, General Surgery, Istanbul, Turkey

Prof. Fernando Schmitt, Porto University School of Medicine, Pathology, Lisbon, Portugal

Prof. Atakan Sezer, Trakya University School of Medicine, General Surgery, Edirne, Turkey

Prof. Vlad Tica, University Regional Hospital, University "Ovidius", Obstetrics & Gynecology, Constanta, Romania

Prof. H. Turgut Turoglu, Marmara University School of Medicine, Nuclear Medicine, Istanbul, Turkey

Assoc. Prof. M. Umit Ugurlu, Marmara University School of Medicine, Breast & Endocrine Surgery, Istanbul, Turkey

Prof. Basak Oyan Uluc, Acibadem Altunizade & Maslak Hospitals, Medical Oncology, Istanbul, Turkey

Assist. Prof. Stefan Voiculescu, "Carol Davila" University of Medicine, General Surgery, Bucharest, Romania

Dr. Cem Yilmaz, SENA Breast Centers, Istanbul Oncology Hospital, Breast Surgery, Istanbul, Turkey

MANOSMED Course
“Advanced Breast Cancer”

13-15 December 2017 / Dedeman Hotel Convention Center, Gayrettepe, Istanbul, Turkey

13 December 2017, Wednesday

HALL A

WORKSHOP “Oncoplastic Breast Surgery”

Chairs: Hasan Karanlik & Omar Omar

- 13:30 Lecture I Systematization of oncoplastic breast surgery**
Speaker: Helidon Nina
- 13:50 Lecture II Preoperative planning & preparation**
Speaker: Omar Omar
- 14:10 Lecture II Postoperative care & complication management**
Speaker: Omar Omar
- 14:30 Hands-on I Grisotti mammoplasty**
Tutors: Hasan Karanlik & S. Ata Guler
- 15:00 Hands-on II Inferior pedicled mammoplasty**
Tutors: Gunay Gurleyik & Ali Ilker Filiz
- 15:30 Hands-on III Round block / Batwing / Racquet mammoplasty**
Tutors: M. Umit Ugurlu & Stephane Zervoudis

HALL B

WORKSHOP “Breast Ultrasonography & Guided Interventions”

Chairs: Stefan Voiculescu & Cem Yilmaz

- 13:30 Lecture I Basic breast ultrasonography basic diagnostics**
Speaker: Vlad Tica
- 14:00 Lecture II US-guided interventions**
Speaker: Stefan Voiculescu
- 14:30 Hands-on I US-guided core biopsy**
Tutors: Beyza Ozcinar
- 15:00 Hands-on II US-guided lesion ablation**
Tutors: Cem Yilmaz & Ahmet Erkek
- 15:30 Hands-on III US-guided breast surgery**
Tutors: Stefan Voiculescu

16:00 Coffee Break

MANOSMED Course
“Advanced Breast Cancer”

13-15 December 2017 / Dedeman Hotel Convention Center, Gayrettepe, Istanbul, Turkey

HALL A

SESSION I

INTRODUCTION TO ADVANCED DISEASE

Chairs: N. Zafer Canturk & Georgios Iatrakis

16:30 Lecture I

Definition of advanced disease

Speaker: Vlad Tica

16:50 Lecture II

Breast cancer biology and biological staging/classification

Speaker: Fernando Schmitt

17:10

Discussion / Q&A

17:30

Opening Ceremony

18:30

Cocktail Prolonge

14 December 2017, Thursday

HALL A

SESSION II

DECISION-MAKING & CLINICAL REASONING IN LOCALLY ADVANCED DISEASE

Chairs: Erkin Aribal & Stephane Zervoudis

08:30 Lecture IV

Physical exam & imaging tools in loco-regional staging

Speaker: Stefan Voiculescu

08:50 Lecture V

Role of systemic screening/imaging in breast cancer: To whom, when & how?

Speaker: Georgios Iatrakis

09:05 Lecture VI

Patient assessment for treatment: Performance scales

Speaker: Bilge Aktas

09:20 Lecture VII

Upfront treatment of locally advanced disease: Neoadjuvant treatment or surgery?

Speaker: Ali Ilker Filiz

09:35 Panel

Decision-making & clinical-reasoning in locally advanced disease

Moderator: Atakan Sezer

Panelists: H. Turgut Turoglu (Nuclear Medicine)

Can Atalay (Surgery)

Erkin Aribal (Radiology)

Basak Oyan Uluc (Medical Oncology)

Ion-Christian Chiricuta (Radiation Oncology)

Handan Kaya (Pathology)

10:35

Coffee Break

MANOSMED Course
“Advanced Breast Cancer”

13-15 December 2017 / Dedeman Hotel Convention Center, Gayrettepe, Istanbul, Turkey

SESSION III

NEOADJUVANT TREATMENT

Chairs: Abut Kebudi & Handan Kaya

- 11:00 Lecture VIII Tailoring individualized neoadjuvant treatment; chemotherapy, hormonal or antiHER2 treatment**
Speaker: Basak Oyan Uluc
- 11:25 Lecture IX Surgery to breast and axilla after neoadjuvant treatment**
Speaker: Negib Geahchan
- 11:50 Lecture X Radiological assessment of response to neoadjuvant treatment**
Speaker: Erkin Aribal
- 12:05 Lecture XI Histological assessment of response to neoadjuvant treatment**
Speaker: Fernando Schmitt
- 12:20 Discussion / Q&A**

12:30

Lunch

SESSION IV

MULTIMODEL TREATMENT OF METASTATIC DISEASE

Chairs: Andreas Patsalides & Thierry Maudelonde

- 13:45 Lecture XII Systemic treatment of metastatic disease**
Speaker: Georgios Iatrakis
- 14:15 Lecture XIII Role of multigene panels: precision medicine in advanced disease**
Speaker: Gul Basaran
- 14:35 Lecture XIV Role of surgery both to primary and secondary tumors in metastatic setting**
Speaker: Negib Geahchan
- 14:55 Lecture XV Role of radiation treatment in locally advanced and metastatic disease**
Speaker: Ion-Christian Chiricuta
- 15:15 Discussion / Q&A**

15:30

Coffee Break

SESSION V

CRITICAL THINKING & PROBLEM SOLVING IN ADVANCED CASES

Chairs: Ali Ilker Filiz & Vlad Tica

- 16:00 Lecture XVI Management of inflammatory breast cancer**
Speaker: Jalil Abdelouahed
- 16:20 Discussion / Q&A**

MANOSMED Course
“Advanced Breast Cancer”

13-15 December 2017 / Dedeman Hotel Convention Center, Gayrettepe, Istanbul, Turkey

16:30 **Case Discussion: Multidisciplinary point-of-care management of advanced disease**

Moderator: Gokhan Demir

Narrator: Bilge Aktas

Panelists: Gul Basaran, Nil Molinas Mandel, Kerim Kaban

17:30 **End of the day**

18:00 **MANOSMED Executives’ Business Meeting**

15 December 2017, Friday

HALL A

SESSION VI **PERSISTENT & RECURRENT DISEASE**

Chairs: Semra Gunay & Negib Geahchan

08:30 **Lecture XVI** **Surveillance of patients with advanced disease: role of imaging & biomarkers**

Speaker: Georgios Iatrakis

08:50 **Lecture XVII** **Treatment of persistent & recurrent systemic disease**

Speaker: Kerim Kaban

09:20 **Lecture XVIII** **Management of loco-regional recurrence**

Speaker: Hasan Karanlik

09:40 **Lecture XIX** **Palliative management of patients with advanced disease**

Speaker: Faysal Dane

10:00 **Discussion / Q&A**

10:15 **Coffee Break**

SESSION VII **ORPHAN ISSUES**

Chairs: Hasan Karanlik & Jalil Abdelouahed

10:45 **Lecture XX** **Management of patients with axillary metastasis with occult breast primary**

Speaker: Omar Omar

11:05 **Lecture XXI** **Management of pregnant patients with advanced disease**

Speaker: Andreas Patsalides

11:30 **Lecture XXII** **Management of advanced male breast cancer**

Speaker: Taner Korkmaz

MANOSMED Course
“Advanced Breast Cancer”

13-15 December 2017 / Dedeman Hotel Convention Center, Gayrettepe, Istanbul, Turkey

11:55 **Lecture XXIII Management of patients with internal mammary, infra/supraclavicular and contralateral axillary metastasis**

Speaker: Ion-Christian Chiricuta

12:15 **Discussion / Q&A**

12:30 **Lunch**

SESSION VIII **ASSESSMENT & EVALUATION**

14:00 **Written Exam**

15:00 **Review, Reflection and Reporting**

16:00 **Certification**

17:00 **Adjourn**

REGISTRATION

Registration Fee: 150 EURO

Turkish Resident: 300 TL

Turkish Student: 150 TL

Daily Registration: 75 EURO

**Coffee breaks, lunches and 18% VAT are included.*

"to complete your registration please contact with organizing secretariat"

ACCOMMODATION

	Single Room	Double Room
Dedeman Istanbul Gayrettepe (Meeting Venue)	60 EURO	75 EURO
Avantgarde Hotel*	65 EURO	75 EURO
Park Dedeman Levent Hotel*	110 EURO	120 EURO
Mercure Hotel Bosphorus*	75 EURO	75 EURO
Divan City Hotel*	70 EURO	80 EURO

- *Prices include 8% VAT.*
- *Price for one night-stay including breakfast.*
- *Hotel room availability may change over time.*
- *For hotel bookings, please kindly contact with organizing secretariat*

**All hotels are at walking distance or close to the convention center and easily accessible by public transportation or by foot.*
